To whom it may concern:

As the President and Chief Executive Officer of RedZone Robotics, Inc., I have had the pleasure of working with Tom Loker since 2009. Tom has served as a trusted board and management advisor to me.

Tom served as a board member and was the most influential decision maker for ICOMMM, Inc. , a California based SaaS (Software-as-a-Service) corporation that RedZone acquired in 2009. Tom was instrumental in facilitating the successful transaction close and led a fractured shareholder group and inexperienced management team. Tom's ability to organize and explain his ideas is exceptional. Since the acquisition, Tom's guidance and input and has always been spot on.

Tom is a critical thinker and leader. He gets to the point of a matter quickly with decisive and crystal clear thinking. Tom is well connected throughout government and industry. He complements his strong decision making capability with strong people skills and salesmanship.

Tom enjoys my personal respect and appreciation and I highly recommend Tom Loker as a business advisor and management leader.

Please feel free to call me any time if you desire more information.

Sincerely,

Eric Close
President/CEO
